Parcel parameters and shipping method

Standard international parcel in the DPD Classic service

- Maximum weight of a single parcel in a shipment: 31.5 kg
- Maximum height: 175 cm (longest side)
- Parcel in the shape of a cuboid with no oversized elements protruding from it
- The consignment note should be placed on the top surface of the parcel

Dimensions in the DPD Classic international service qualifying for acceptance for transport:

$$2 \times \text{length} + 2 \times \text{width} + \text{height} \leq 300 \text{ cm}$$

*wysokość jest zawsze najdłuższym bokiem paczki

Standard international parcel in the DPD Express service

- Maximum weight of a single parcel in a shipment: 31.5 kg
 - Actual weight of the parcel: 70 kg;
 - Maximum height: 175 cm (longest side)
 - The sum of the base circumference and the height of the package must not exceed 300 cm, where the height is the longest side of the parcel:
- ($2 \times \text{length} + 2 \times \text{width} + \text{height} \leq 300 \text{ cm}$)
- Package in the shape of a cuboid or cube, with no protrusions
 - No oversized elements
 - The waybill should be placed on the top surface of the parcel

NOTE:

Non-standard parcel in international service (meeting at least one of the following conditions)

- Cylindrical, round or oval-shaped parcel, e.g. tube, fabric roll
- Packages with irregular shapes, including packages that are not packed in cardboard boxes/packages with regular shapes
- Parcels with protruding elements wrapped in material that prevents them from moving freely on the sorter, such as rubber, etc.
- Tyres, if packaged contrary to DPD Polska guidelines (detailed information can be found in the Instructions for the proper packaging of tyres at DPD Polska)
- Parcels whose longest side exceeds the maximum length.
- A parcel consisting of two separate parts joined into one irregular whole, e.g. with stretch film or tape.
- One shipment in the air service may consist of a maximum of 10 parcels. Additional parcels, above 10 pieces, will be treated as another shipment

Standard international pallet in the DPD Classic and

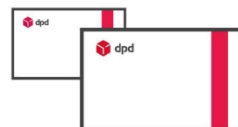

DPD Max services

- Maximum pallet weight - 700 kg
- Maximum pallet base dimensions - 80 cm x 120 cm
- Maximum load height (including pallet)= 170 cm
- Pallet where the goods do not protrude beyond its outline
- Goods packed on a pallet have a rectangular prism shape.

Company packaging

All parcels packed in DPD company packaging are standard parcels. DPD company packaging includes: cardboard envelopes, foil envelopes and company cardboard boxes bearing the DPD logo.

Dimension weight

$$\text{Waga gabarytowa paczki DPD Export, DPD Import} = \frac{\text{wysokość} \times \text{szerokość} \times \text{długość}}{5000}$$

$$\text{Waga gabarytowa paczki DPD Epress} = \frac{\text{wysokość} \times \text{szerokość} \times \text{długość}}{5000}$$

NOTE:

For calculation purposes, dimensions must be given in centimetres. Volumetric weight for the OPD Classic Export service:

- if the volumetric weight according to the above formula exceeds 0.1 kg, the higher weight will be taken into account.
- if the dimensional weight according to the above formula exceeds 31.5 kg, the price for a parcel up to 31.5 kg will be taken into account, plus a surcharge for "Exceeding technical limits".
